

Parish Buying is a service provided by the Church of England to use the bulk buying power of the Church to negotiate favourable contracts with suppliers. There is a range of products and services offered from fire safety to boilers to insurance. It is worthwhile checking with Parish Buying before purchasing items that they can supply although experience has shown that they are not always the cheapest.

They have national supplier deals on:

- Energy
- Furniture
- Boilers
- LED lighting
- Photocopying
- Phone and broadband
- Insurance
- Office Products

You can view what is available by going to their web site <https://www.parishbuying.org.uk/> where you will need to register as a member but this is free. **Phone number is 0800 368 0887.**
